## Accelerometric recording since 1996

The obtained records correspond to moderate earthquakes, mainly non felt by population. In the case that the earthquake was felt the intensity information is included.

<?php include("../php/sismes\_accel.php"); echo taulaenreg("eng"); ?>

EARTHQUAKES RECORDED BY THE ACCELEROMETRIC NETWORK									
Date	Time (TU)	Mag	Epicentral region	Station	Acceleration (cm/s <sup>2</sup> )			Epic. dist. (km)	Intensity
					E-W	N-S	V
